HOW IT WORKS

From shortlist to shipment in six steps

One advisor stays with your order from first message to vessel departure.

1

Share your requirement

Send model, budget and destination port.

2

Receive a shortlist

Matched cars with photos and FOB prices.

3

Review details

Inspection report and extra photos on request.

4

Confirm quotation

Locked price incl. FOB or CIF terms.

5

Documents & customs

Export licence, bill of lading, invoices.

6

Ship to your port

Track vessel until discharge at destination.

BUYER FAQ

Answers before you wire a dollar

Payment, paperwork and shipping — the questions every first-time importer asks.

How do I pay, and is it safe?

T/T bank transfer to our company account (30% deposit, 70% before shipment). Every payment is backed by a proforma invoice and sales contract.

Which documents do I receive?

Bill of lading, commercial invoice, packing list, export licence and COC where required — a complete set for customs clearance at your port.

How long does shipping take?

Typically 18–35 days depending on destination: Gulf ports ~18 days, West Africa ~28 days, Russia via rail or Vladivostok ~20 days.

Can I inspect the car before buying?

Yes — request a live video walkaround or a third-party inspection report (SGS / QCC) at any time before the deposit.

Tell us which vehicle you need.

Send the model, budget and destination port — a quotation within 12 hours.
